

Welcome Marnie!!

We are excited to welcome our brand new Engagement Manager and Nutritionist for Merton, Marnie. Marnie will be responsible for key interaction with parents and pupils to help introduce healthier choices in and out of school. Marnie is joining us straight from university, where she read Nutrition, and graduated with a first-class degree.

Marnie is able to organise a variety of activity for your school, including but not limited to...

- Parent coffee mornings
- Parent taster sessions
- Nutrition workshops - mainly child focused
- Assemblies
- Events at parents evenings
- Creation of newsletters
- Allergen enquiries

Marnie is very enthusiastic to get out into her local schools and make an impact!

I'm looking forward to work in partnership with pupils and teaching staff in the local Merton schools, so we can come together and improve health/wellbeing throughout the borough.

My goal in Chartwells is provide support and education to our children, to enable them to make life-long healthy decisions. So that everyone can enjoy a happier and healthier future.

Make sure you contact Marnie for any engagement based queries
